## Foreword

*The State Domestic Product (SDP) represents the value of all goods and services produced within the geographical boundaries of the State in a particular year. It is one of the most important economic indicators to measure the economic growth of the state. The Per Capita Income (PCI) measures the standard of living of the people.*

*The Directorate of Statistics & Evaluation, Bihar has been bringing out the estimates of State Domestic Products since 1948-49, and updating them from time to time as per the guidelines and methodology provided by the National Account Division, Central Statistical Organisation, Ministry of Statistics & Programme Implementation, Government of India.*

*It is matter of pleasure for me to release the first issue of this publication on estimate of State Domestic Product of Bihar pertaining to the period 1999-2000 to 2006-07 (Quick) in the New series with Base Year 1999-2000. This publication also contains District Domestic Product for the years 1999-2000 to 2004-05 at Current & Constant (1999-2000) prices, prepared by following the guidelines & methodology provided by the Central Statistical Organisation (NAD), New Delhi.*

*Co-operation and assistance extended by various Departments of the State Government and Central Statistical Organisation (NAD), New Delhi in bringing out these estimates included in this publication is highly appreciated and deeply acknowledged.*

*The State Income Unit of this Directorate has prepared this publication. I would like to place on record my deep appreciation of the hard work put in by the officers and staff members of the State Income Unit to ensure timely publication of this issue.*

*It is hoped that this publication would be useful by Policy-makers, Administrators, Planners and Research Scholars. The creative suggestions for improvement in this regard are invited and will be thankfully accepted.*
